

EDITORIAL

The IJVR journal has evolved over the last 30 years. We have been in existence since 1995 in US, and were headquartered in Hangzhou, China, from 2006 to 2012. Now IJVR is hosted in France, the policy is a full access online.

This editorial is my last one as editor in chief. After 5 years as editor in chief, I am very proud to give IJVR' keys to Pr. Simon Richir, Dr. Olivier Christmann and Dr. Christine Ollendorff.

This issue is a regular issue, composed of 3 papers :

- A Visual Programming Tool to Design Mixed and Virtual Reality Interactions (Guillaume Loup, Sébastien George, Iza Marfisi and Audrey Sema)
- Hardware Design for an Electro-Mechanical Bicycle Simulator in an Immersive Virtual Reality Environment (Jaemin Powell, Oliver Stroh, Geb W. Thomas)
- Virtual Reality and Assistive Technologies: A Survey (Shamima Yasmin)

We hope the readers can benefit a lot by reading these papers.

Pr. Cédric Buche
Editor-in-Chief
European Center for Virtual Reality, France
